STREET GRADING IS PROGRESSING WELL

KET STREET READY FOR LAYING CONCRETE.

TO BEGIN MONDAY MANY CONFESSIONS

Machinery For Mixing Concrete Will Be Placed Today and This Work Starts Soon.

The work of grading West Market street preparatory to the laying of the concrete for the asphalt paving is progressing rapidly and the officials stated yesterday that they were well pleased with the progress that had been made. The work of lowering the water mains by the Southern Pubthe water mains by the Soutcern Pub-lic Utilities Company is far ahead of the grading forces now and it is thought that they will have no trou-ble in keeping ahead.

It was stated yesterday afternoon that 3,000 yards had been graded and is ready for the concrete. The con-crete foreman is expected to arrive crete foreman is expected to arrive this morning and the placing of the machinery on West Market street will begin today. Mr. W. E. Barnett, who is superintending the grading, stated yesterday afternoon that they would need 30 hands Monday morning for the concrete work.

The machinery of the asphalt plant has been placed and there will be no delay on this account when the concrete is ready for this cover.

DARKEN GRAY HAIR LOOK YOUNG, PRETTY

Sage Ten and Sulphur Darkens So Naturally That No body Can Tell.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair whea faded, streaked or gruy; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is funsty, and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old, recipe for about 50 cents.

Don't stay ray! "Try it! he one can possibly tell that you darkened your hair, as it does it so materally and evenly. You dampen a spouse or soft brain with it and dray this through your hair, lating one small strand at a time; by morning the gray hair disappears, and after the other application or two, your hair becomes beautifully day, think and glossy.

Psalms 135;6

vive us again?
This Psalm seems to written soon after the return of the Children of Israel from the Babylonish captivity, as you will easily see from the language at the commence-ment of it. The Psalmist felt that God had been very favorable to the people, and while contemplating the goodness of the Lord in bringing them back from the land where they had been carried away captives and while looking at the prospects before them he breaks out in a fervent pray-er for a revival of religion. God had already reestablished the audiences of his house among them, and then or this morning. He says that as soon as it comes he will begin using it to pull the plows. He also stated that he would have to do some hauling this week in order to get the rock and sand ready for the mixing of the concrete.

cludes a conviction of ain, first in the church when Zion travells, sons and daughters will be born, are the words of our God. What we used is a new beginning of the old obedience, the renewal of faith which breaks the power of the werld, over the church and of sin and the devil over the citurch. So God Almighty can muster more at the prayer meeting than the devil can at a card party or a leg show.

church. So dod almignty can muster more at the prayer meeting than the devil can at a card party or a leg show.

When is a revival needed? Well, when do you take medicine? You say, when you're alck. When do you call the fire company? When you house is on fire. When do you use water? When you are dirty or thirsty When do you need a revival? When yo uare going to the devil.

When is a revival needed? When there is a want of brotherly love and Christian confidence among professors of religion. When Christian neople have sunk down to a low and backslidden state. They neither have no rought to have nor is there reason to have, the same love and confidence towards each other as when they were alive and afire for God. The love and benevolence may be the same, but not the love of complacency. Odd loves all men with the love of henevolence but he does not feel the love of complacency for any, but these who are on the square for him. Nowadays, people are trying to divert attention from their pusilanimous pusilanimity by knocking other people, and you can bet your life there is more wreng with the knocker can be a revival needed? When the church standard is low, when there is dissentions, jeasousy, evilspeaking, hichering and strife among church members, then there is a great need for a God sent, keaven hora revival. Why, some of you professing Christians here in Antersan, never ask grave at the lote; in there does a hog. No wonder we have cut so

Roll This Thought Around Under Your Hat

"-- A man pays for whatever he gets, in this world. A wise man gets what he pays for. A man who pays and doesn't get, is the other kind of a man,-and there are plenty like him."

The Toet had three men in mind. First the man who goes to a Clothing Store expecting to get more than he pays for. He lests left. Second, the man who, spending his good money, doesn't get value redeived. He gets to the wrong store. Third, the man who, thinking economize, "saves" the price of a new Suit, and pays for it just the same in less of comforf, satisfaction and self-respect. He gets another think.

Of course none of these men live here But, if you should ever meet such a man, you'll know just what to tell him,

and how to direct him here,-to a store where he'll always get the most for his money. It's a good thing to remember.
